BERLIN TRYING TO OUST PARIS IN DRESS MAKING

American Buyers Arriving for Advance Autumn Sales.

BERLIN, July 1 (Associated Press).—
Berlin is out to contest Paris' claim to the throne as queen of fashions.

The arrival of American buyers for advance autumn sales is stimulating the agitation among fashion designers of Berlin who are redoubling their efforts to regain for the German capital her prewar rank among the centers which set the pace for the well dressed world. There is reported to be a growing tendency on the part of foreign buyers who ask not for Parisian models but for those of Berlin costumers themselves.

It is pointed out that Germany once dressed whole nations because of the good quality and low prices of here products, but to-day she finds a considerable number of foreign markets barricaded, although, it is declared, here goods are better than before the war.

The revived effort by Germany for reinstatement in the world's fashion marts is evidenced in men's wear as the point of physical dimental proved a disappent to those who knew Mr. Taft in his President the editorial proved a disappent to those who knew Mr. Taft in his President the editorial proved a disappent to those who ment him to the same know for the same and eligible stime the point of physical dimensions, but to those who ment him to the same know for the same and the point of point of physical dimensions, but to those who ment him to the same know for the same and eligible same and unassuming ways are sent to those who knew for her ment all proved a disappent to the same and eligible same like for the same and eligible same like for the same and eligible same and enate point of the fort same in the point of the

A letter on the table confirmed the suicide, naming an undertaker to whom she had given instructions for burial. According to the widow's few confidentes, she had a small income before the war, which had dwindled until lateral ways and the statement of the terly it barely provided her with the necessaries of life. Friends in the United States had sent an annual re-mittance to cover the rent.
